Quick guide

Updating content buddies to providers

For content providers

* When a content buddy reaches a specific number of points, you may give administrative rights to this user and allow him to create new courses (L-bundles) with educational material, and also L-mites.

WARNING!

** It is <u>not recommended</u> to perform such an action, unless absolutely necessarry. Content providers, like you, have full access to the educational material and can accidentally delete other's material.

Transforming a user (content buddy) to "content provider"
